

Sources/nepMathRound.c

```
graph TD; A[Sources/nepMathRound.c] --> B[nepMathRound.h]; A --> C[nepMathDivision.h];
```

The diagram illustrates a dependency or relationship between a C source file and two header files. At the top, a grey rectangular box contains the text 'Sources/nepMathRound.c'. Two blue arrows originate from the bottom edge of this box. The left arrow points to a white rectangular box containing 'nepMathRound.h'. The right arrow points to a white rectangular box containing 'nepMathDivision.h'.
