

test\_whenTheDevicesReset  
\_thenTheStatusLedIsTurnedOff

```
graph LR; A["test_whenTheDevicesReset  
_thenTheStatusLedIsTurnedOff"] --> B[event_deviceReset]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'test\_whenTheDevicesReset' on the first line and '\_thenTheStatusLedIsTurnedOff' on the second line. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'event\_deviceReset'.
